## ***Enrich Your Ministry...***

This SPE program offers a unique learning opportunity for those in congregational ministry who might otherwise find it difficult to take an institutional-based CPE unit. Moreover, the program has been designed to meet the specific needs of those who provide ministry in this context. For instance, the program day is Monday which decreases the interference with the normal routines of congregational life; breaks are scheduled over the Christmas period in order to adapt to the increased workload at these times in the life of the church; participants can draw upon their continuing education leave and allowances as supportive resources for the program; the clinical portion of the program and most individual supervision occurs in the participant's congregation (decreasing disruption and allowing the participant to derive maximum benefit from learning in the specific context of their ministry); and didactic sessions focus on specific areas of concern for congregational ministry (spiritual leadership, systems theory, conflict theory, skills for providing spiritual/pastoral care, life transitions, grief, etc.).
